

Drone Pictures of the Buseth Farm taken Spring (top), Summer (middle), and Fall (bottom) of 2022 by Farm Manager Harald Buseth

These pictures were sent to Richard Busath from Harald Buseth. He lives on the Busath farm or (Buseth Farm to the Norwegians) today. These pictures were taken by drones in 2022. The top picture was taken in the spring, the middle picture in the summer and the bottom picture in the fall. Richard met Harold when I visited the farm in 2023. He has been very helpful with the history of the farm.
